1 ARCHIVE CARDIACS. A collection of Cardiacs earliest work, recorded between the years 1977-1979. Slightly compiled and released on the black market without the bands knowledge by an embittered associate for personal gain. Now available legitimately on compact disc. Simply a 'must have' for the collector of loonies drive.

2 THE SEASIDE. Previously available only on compact cassette, 'The Seaside' is a collection of songs performed by Cardiacs between the years 1980-1983. The production of this album on compact disc has been made possible only by the recent re-discovery of the original cylinders so heavily used by Cardiacs in their early attempts at phonographic reproduction. This disc, though lesser in content than the cassette version due to the station destruction, albeit rumoured accidental, of one or two of the valuable cylinders should nevertheless prove to be a boon to the collector of antique curiosity.

3 RUDE BOOTLEG. Very rough and very ready official bootleg released at the very last muddy minute at the Reading Rock Festival in 1986. Quality recording? No way! Collectors note!... WAA! Purely for the fanatic.

4 A LITTLE MAN AND A HOUSE AND THE WHOLE WORLD WINDOW. Cardiacs first studio album proper. This fine recording was first unleashed on our eternally grateful world in 1988. Available to you now in its entirety as originally planned by the inclusion of the mysteriously missing song 'I'm eating in Bed'. Includes the smash hit single 'Is this the Life?'

5 CARDIACS LIVE. It was during the Cardiacs European tour of 1988 that The Alphabet Business Concern generously commissioned this recording of the gals performance at Amsterdam's prestigious PARADISO. A very strange and worrying story is attached to the making of this album.

6 ON LAND AND IN THE SEA. Originally released in 1989 this beautiful recording embodies all of the finest qualities associated with Cardiacs. It is with great pride that the Alphabet Business Concern are able to once again make it available for your personal gratification.

7 BONGS FOR SHIPS AND IRONS. The Alphabet Business Concern, having a keen eye for a wacky and in keeping with our unmitigated regulation as the caring concern, have deemed it appropriate at this time to release this collection of excellent recordings (originally recorded and released in 1989 but now sadly denied in individual form) as one long playing compact disc for your listening pleasure.

8 ALL THAT GLITTERS IS A MARES NEST. The ultimate live album now made available to you on both compact disc and video. Recorded and filmed in 1990 in a spooky church midst the barren scorched plains of England's own Salisbury. This outstanding recording captures one hundred percent the sights and smells of a full-on Cardiacs concert performance.

9 HEAVEN SEND AND EVER BRIGHT. This excellent album, originally released in 1992 begins with a specially commissioned hymn in glorious praise of the Alphabet Business Concern and continues with an unrepenting splendour guaranteed to lift the bloated heart and swollen lungs from even the lowest ab. Originally recorded by Rough Trade. The methods employed by this company gave this wonderful album the distinction of being probably the rarest Cardiacs release of all. Until NOW!

10 THE SEA NYMPHS. The rumour that three key members of Cardiacs both past and present, namely Tim Smith, Sarah Smith and William D Drake had been secretly recording material under the name of 'The Sea Nymphs' for a new album seem to be released through the Alphabet Business Concern have been proved to be true. The facts of the matter were brought to our attention by the trusted services of our hirelings and we have deemed it appropriate at this time to reveal these interesting findings.

11 TIM SMITHS EXTRA SPECIAL OCEANLAND WORLD. Here we have a collating collection of songs from the prolific pen of Cardiacs main composer and lead singer Tim Smith. Recorded and performed by way of a persona on his own between the years 1989 and 1991.

12 NEW ALBUM COMING SOON. Now for 1995, the forthcoming Cardiacs album, which isn't finished yet and hasn't got a title either. But in the meantime clench your small fists and await this new recording being so generously brought to you by the unfaltering grace of the Alphabet Business Concern.

Hello, this is ORGAN issue 43

If this is your first time then where the hell have you been? Organ comes in all shapes and sizes... Most of the time Organ is a big fat fanzine, sometimes it's a free newspaper... this time it's a special creation for the Cardiacs tour with Chumbawamba. We've been doing this for nine years now... we started a fanzine because there were loads of great bands out there you just couldn't read about anywhere else but in the zines... and nothing has really changed... so we're still here, and we're going to be here for a long time yet... These days we find ourselves putting on regular gigs, mostly in London but that's because it's our home town, sending fanzines all around the world, posting tapes to all parts of the globe... And now we have a record label, ORG records. You may have caught that Cardiacs single we released back in the summer - Belyays was the first new Cardiacs material for ages... if you haven't got the three track EP then go and bug your local shop (ORG releases are distributed by Pinnacle) or drop us line, we'll happily sell you a copy mail-order. In fact we've got lots of good stuff available through mail order, other peoples releases and zines and tapes and shirts as well as the earliest we have on our own label.

Meanwhile all of Cardiacs back catalogue has been re-issued on their very own label Alphabet (Distributed by Plastic Head) and the new Tim Smith solo album and the long awaited Sea Nymphs album will be released any moment now. The brand new Cardiacs album will be released in early 1996, once Jim Smith has finished planting seeds in his mud castles. There's so many new songs than we've told it could be a double CD and you can expect a full UK tour in the Spring.

ALL THAT GLITTERS

Organ is usually packed with reviews of new bands along with content addresses... some of the new things we've been covered by recently include RHATIGAN - a three piece band who sing a wealth of ball experimental sounds with delicious songs, a kind of Lu Furr more than Youth... SKYDRIVE are actually noise punks who sing the song off your ears without ever getting obvious, they've got their debut 1" out now. Contact 38 Museum Road, Wood Farm, Oxford, OX3 9JQ. FEAR OF FEARS Make a noisy, progressive hardcore sound, a kind of Experiment/Horrorcore. Freaks/Silverfish thing that waves around itself in a delightfully dark way, highly recommended tape (£3.50 payable to J. Clifford, PO Box 240, Essex, London, SE9 4HG. LONDON AFTER MIDNIGHT One of the best we've seen this year, a delicious dark wave ritual, they're back for more dates in December. Camden Underworld on Dec 29th.

RICHIE OLUS Featuring Keith from Headbutt and Andy from Creaming Jesus along with Matt and Lewis both from Horrorcore Freaks play their first gig at the Organ Christmas gig at the Camden Monarch on December 19th, also on the bill are Kiss and legendary single American punkers. The Eels (a band best known for their time as Circle jerks roadshow)... STILL LIFE WITH FRUIT have an extremely tasty two track demo that mixes a taste of Ring with early Cardiacs and Here And Now, like a manic crowman puppet with half it's strings cut.

CONNECTION with Bad Brains to Bushband and Black Flag and a healthy amount of Rage Against The Machine. PURA VIDA Have the layers of the Beach Boys and the power of Foo Fighters and the silencing stunts of Weezer, it's kind of fucked up pop and you need more. DEATH ORGAN This Dyer with ELP, Volant with Queenside. NINE HYDRILES have a tape album that's evolved out of BHP Of Fools, a kind of Queens meets Aphex Twin with teachings of J. Factor. Contact Box 69, Dewdney W, Yorkshire, WF13 4QQ. READ ABOUT THESE & THOUSANDS MORE IN ORGAN FANZINE. WRITE US A LETTER TODAY. CONTACT AND SWITCH THE OTHER. The music is better than ever if you dig around and find it... and all the equipment can throw at us in (June).
